1. Situation. To promulgate information concerning the Blood Donor Program for units and organizations located aboard the Marine Corps Air Ground Combat Center.

2. Cancellation. CCO 6530.1G.

3. Mission

a. The Combat Center Blood Donor Program is an integral part of the National Blood Program established within the Office of Defense Mobilization. The Community Blood Bank Center (CBBC) in Rancho Mirage, California serves as the official procurement agency within this area, and is under the auspices of the Blood Bank Commission of the California Medical Association.

b. The Office of Defense Mobilization has established priorities for the allocation of whole blood and its derivatives. First priority is given to the allocation of whole blood to the Armed Forces for transfusion purposes. Second priority is given to the allocation of whole blood and blood derivatives for civilian needs. Third priority is to meet immediate needs and to establish a national plasma reserve. Total reserves of plasma and blood derivatives are subject to immediate reallocation by Executive Order of the President in the event of enemy action or other wide scale catastrophe.

c. The CBBC provides blood to military personnel and their family members in this region. Blood is always available for service personnel and their family members through the Blood Bank at the Naval Hospital aboard the Combat Center. Any unit desiring to donate blood to any agency or blood bank other than CBBC must obtain written approval from the Combat Center Blood Program Coordinator.

d. Units desiring to donate blood to particular patients in the civilian community should contact the Community Blood Bank Center Coordinator in Rancho Mirage at (760) 773-4190.
